

Registration Application: Guidelines & Fees

Registration provides life-time permission to use the self-scoring versions of the IPPA, INSPIRIT, and SRA (pdf format; English and Spanish versions).

An application and registration fee is required (personal use, individual professionals, and institutions). Institutional registration allows appropriate professionals who are *currently employed* by the institution to use the instruments (for institutional activities only).

Approved registration: you can make an unlimited number of copies (as needed for your particular purposes, as specified in your application). All copies must reproduce the copyright notations on the master template(s).

When registration is approved, and fee is received (via PayPal), we send you a template of the questionnaire(s) you have requested (pdf files).

The website includes sample copies for your review. These questionnaires are protected by copyright. It is not permissible to download or use the sample website copies.

Please honor Dr. Kass' extensive efforts developing these instruments by respecting these appropriate registration requirements.
